

It's Time to Start Preparing for the Significant Updates to the MDS 3.0 v1.18.11 Item Set

June 7, 2023

Program Description:

Annually, CMS anticipates releasing revised MDS Item Sets to enhance collection of resident information from nursing homes. However, due to the pandemic, CMS has not revised the MDS which is leading to significant changes post-pandemic. CMS has already released a draft version of the MDS Item Sets and anticipates releasing the draft Resident Assessment Instrument (RAI) manual soon. This webinar will provide attendees updated coding and instructions based on the draft RAI manual to assist nursing home providers with the preparation for the final release October 1, 2023, and aid in successful implementation. Identify items from the IMPACT Act of 2014 that are now part of the MDS 3.0 v1.18.11 and their importance for LTC.

This session will include:

1. Locate the guidance for these new items in the draft RAI User's Manual.
2. Discuss the changes to resident interviews with this version.
3. Develop a training plan for staff involved in the RAI process in your facility.

Presenter:

Mary Madison, RN, RAC-CT, CDP
Clinical Consultant - LTC/Senior Living,
Briggs Healthcare, Clive

Mary Madison has 50 years of experience in the health care field, with 45 years in long-term care industry. Mary has held positions of director of nursing in a 330-bed SNF, director of nursing in two 60-bed SNFs, charge nurse, a reviewer with Telligen (Iowa QIO), director of continuing education, manager of clinical software support, clinical software implementer, and clinical educator. She has taught numerous classes on the MDS 2.0 and the MDS 3.0 throughout the United States over the past 2 decades as well as many other nursing topics including resident rights, dependent adult abuse, falls, nutrition and hydration, bloodborne pathogens, Alzheimer's Disease, etc. Mary joined Briggs Healthcare in 2014 as the clinical consultant for long-term care and senior care including assisted living.
